## **Introduction**

Thanks for taking the time and the first step in making good money through CPA networks and marketing. This report is just a sneak peek of my exclusive membership to my CPA power program that is only open for limited time accepting new members. This report won't contain any fluff or fillers, just straight to the point on how you can apply these same techniques to almost any kind of niche and make money through CPA offers. There are two strategies that I am about to reveal to you that also work hand in hand together to maximize your revenue potential. So let's get started on these techniques.

## **Technique 1: Making Money with the Content Unlocker**

This is a fairly new concept in CPA marketing and there are a couple of CPA networks that have a content unlocker feature that you can use on your own websites. The content unlocker is a way to block content from your site until a user completes a survey (which you get credit for the lead), and then the user will have access to your site content. The content unlocker feature is great for sites that have content available like wallpapers, streaming videos, etc. I suspect that this type of marketing will continue to be popular in the future and more CPA networks will adapt to this feature. Basically, all of these types of offers allow incentive marketing which means that the offer allows users to complete their offer in return for something.

I'm going to give you some live examples of how I'm using the content unlocker on some of my websites

that are making money each day from it. First there are only two networks in which you can implement this feature on your own website for right now. [CPALead.com](http://CPALead.com) (my top recommendation), [InstantDollarz.com](http://InstantDollarz.com), or [PerfectTracking.com](http://PerfectTracking.com) all allow you to copy a line of code from their site in which you paste on your website. Using the content unlocker features means that you need to have a website with good content on it that a user will actually spend the time to fill out a survey to get access to your content. I'm sure there will be more CPA networks down the road that implement this technique but both companies listed above are excellent to work with and you shouldn't have any problems getting accepted into their network.

## Technique 1 - Using the Content Unlocker on Your Website

This first technique will show you how you can setup your own website using the content unlocker feature. Free traffic is always the best way to get visitors to your website and/or CPA offers as all your leads will be 100% profit. Article marketing is my favorite way in getting lots of free traffic using the content unlocker method to my sites. From what I've found, it's not going to guarantee you the amount of traffic you can get from PPC, but it's 100% free so with a little time and effort it will be worth it in the long run. In some cases, using my article marketing method is actually a lot easier to setup a new campaign then it is through PPC. So this free method I am going to explain is writing many different articles on different keywords that I have within my website using the content unlocker. I like using [ArticlesBase.com](http://ArticlesBase.com) for writing my articles as it seems to be the best way to get top rankings in Google for my keywords that I'm targeting and they allow up to 3 hyperlinks within your article that you can send to your site.

## Setting Up the Site

In this example, I will take my grocery coupon free content site I created as a demonstration on how I setup my articles. This is a content site that I setup where I offer my visitors various website listings where they can print grocery coupons, get free product samples, etc. The first thing that I needed done was a simple landing page designed for me. I outsourced the design for this basic one page layout which cost me \$50 on [ScriptLance.com](http://ScriptLance.com). I'm not a web designer so I find that outsourcing this type of work is the best as you will need to have some kind of professional looking landing page. You can see the template I had created for me below which I will use for each one of my pages within the site. Later on, I will show you

how to setup your own professional looking content website using WordPress for free.

Printable-Grocery-Coupon.com

**100% FREE PRINTABLE GROCERY COUPONS**

- 2** Choose Your **FREE** Coupons & Product Samples
- 3** **PRINT YOUR COUPONS INSTANTLY**

Images of various grocery items and coupons including Nuggies, Dove, Frito, and Jell-O.

The second thing that I did was research by searching through Google for legitimate websites that offer free coupons that users could print. I came up with about 10 of them and a couple were even CPA offers where I will get paid for a lead just for referring someone to print free coupons! I then created a simple one page directory with links to all my site listings as you can see below after my landing page was designed for me.

**PRINTABLE GROCERY COUPONS**

**Our Entire Coupon Directory List**

**New Coupon Sites Are Always Added!**

Make Sure You Sign up for Our Free Newsletter to Get New Coupons, Free Samples, & More!  
[Sign up On Our Home Page](#)

- [Mr. Rebates](#) - Over 1,000 stores you can use coupons and get rebates back. You get \$5 just for signing up free!

This page listed above will have the content unlocker installed on it so that when a user clicks on the "Print Coupons" link from my home page, they will be directed to this page with all the free coupon sites there.

The user will need to complete a survey in order to unlock the page in which I will get credit for a lead. Installing the content unlocker is very simple as it's simply a matter of adding one line of code that you can get from either your InstantDollarz or CPALead account. You can see the content unlocker in action by visiting my live site here: <http://printable-grocery-coupon.com/>

## Getting Traffic

Now it's time for me to get traffic to my site. When writing my articles, obviously I'm not going to target keywords like "coupons" or "grocery coupons" as I wouldn't have a chance to get top rankings in Google for just writing an article as I would need to setup a much more in depth back linking campaign. Instead, I'm going to focus on longer keyword phrases like individual items that people would be searching for. With coupons, there are literally thousands of different combinations of individual grocery items which I can target as each individual article. To find out which keywords you can potentially rank on the first page of Google, my rule of thumb is that you need to target keywords that have less than 10,000 competing websites for that keyword phrase. In order to find out how many sites are targeting a keyword phrase, you can simply go to Google and put quotes into the search for your keyword phrase as listed below:

You can see above, that there are 7,320 results for this exact keyword phrase which is under 10,000 so I should be able to rank my article in the first page of Google for this keyword phrase.

Before you write articles on specific items, what you want to do is make sure that the free content sites offer the specific item you are targeting. After looking through all the free coupon sites I had I was going to write my first article I targeted to "Gillette coupons". The most important thing to do is use your keyword phrase in your title which I did as you can see below. I was targeting two keyword phrases in my title: "gillette coupons" and "printable gillette coupon".

I wrote my article around how consumers can save money with printing coupons and then using the keyword phrase a few more times within the article. Most of this article text can be used for all my articles

as I would simply need to modify the actual item.

The screenshot shows the 'Articlesbase' website interface. At the top, there's a search bar and navigation links like 'Why Submit Articles?', 'Top Authors', 'Top Articles', 'FAQ', 'Publish Article', 'My Home', and 'Sign Out'. The breadcrumb trail reads: Home Page > Food & Beverage > Gillette Coupons - Printable Gillette Coupon. The main article title, 'Gillette Coupons - Printable Gillette Coupon', is highlighted with a red box. A red arrow points from the text 'Article Title using my Keywords I'm Targeting' to this title. Below the title, it says 'Posted: Jan 20th, 2009 | Comments: 1 | Views: 5,001 | SHARE'. The left sidebar contains 'Author Navigation' (My Home, Publish Article, View/Edit Articles, Edit your Account, Manage Authors, Statistics Page, Personal RSS Builder, My Widgets) and a profile for 'GetRinger' with 95 articles online. The main content area has a sub-header 'Print Your Free Gillette Coupons Instantly Here' followed by a paragraph about getting free coupons. Below that is another sub-header 'Print Your Free Gillette Coupons Instantly Here' and a paragraph about saving money in a tough economy. The right side features 'Ads by Google' with links for 'Coupon Gillette', 'New Tide® Coupon Offer', 'Print Coupons', 'Razor Blades', and 'Printable Grocery Coupons'. At the bottom, there's a 'Syndicate this Article' section with a 'Copy to clipboard' button and a code snippet.

Once I submitted my article it got indexed fast by Google and I know own the top spots for keywords gillette coupons

Even further I'm in the top 10 for keywords: printable gillette coupons and gillette coupon. There's nothing more that I did in achieving these results than writing the article, using the keywords as my title, and then using them a few more times within the body of my article. The results for just this one article are very good as I've gotten over 5,000 article views and lots of free traffic to my website.

I can do this same technique and write other articles for hundreds of different specific items to maximize my free traffic. Article marketing does take a little longer to setup and it's not always guaranteed that your article will appear in the top results in Google, however it's all free traffic to your site and that means 100% profit to your content unlocker site.

## Technique 2: Using Google Trends and the Content Unlocker On Your Website

This method I am about to reveal to you is the most powerful technique that I've found to work the best. You will not always find this method to work daily, but you will be able to use it quite often. This technique is using Google Trends again, writing an article, and then sending the users to your own website using the content unlocker to get leads. When using the content unlocker, you need to make sure that you have some good content that the user will be willing to complete a survey to unlock your page so this method will work well with pictures, videos, downloads, etc. For example, if there was a recent celebrity wedding that took place, lots of people are searching for the wedding pictures, and if you find these pictures doing your search research online, you can add a link to your site which directs the user to these pictures only after they complete a survey from your content unlocker.

In my live example, I am going to show you how you can make a lot of money per day with one particular Google trend search phrase. I saw that there was consistently a lot of searches for "Erin Andrews" a few days in a row which tells me that the topic is very hot. I found in my research on this topic that apparently there was a video that was released on Erin Andrews who is a popular sports caster for ESPN from her

hotel room. As I said earlier, if you have the ability to add picture, video, or any kind of download content on your site that people are searching for, you can use the content unlocker technique on your site. Since people were searching for the Erin Andrews video, I created a simple landing page.

You can see the basic setup I used below that only took me a couple minutes to setup. I use Front Page to create my simple landing pages that do not require any professional layout but any website builder or editor should be able to create something easy like that. I always just use an existing domain that I have and then make a sub directory on the particular topic I choose to target. You can see the page below as it's as simple as you can get with a title and a couple pictures I found online. Here's the actual site:

<http://fanbrag.com/erin-andrews>

The most important thing is to have a noticeable text like I do that shows "Click Here to Play". Instead of making the user click from my home page to a second page that displays the content unlocker, I used a feature that InstantDollarz allows to delay the content unlocker from being shown right away. This gives the user a quick look at my home page that shows a thumbnail of a video where they can play the video.

The user will see this page for 2 seconds and then it will automatically lock the page from the code that I got using the content unlocker from my InstantDollarz account. The user will then see the page locked as shown below where they will need to complete a survey to unlock the page.

There is a fine line on what topics you choose to setup using the content unlocker and in my research I found that this particular video of Erin Andrews was apparently a peephole tape that someone clearly invaded her privacy with, I chose to not actually host on my site or even give a link to this particular video. As with any type of pictures, video, downloads, etc. using the content unlocker, I never actually put the content directly on my site and instead, just link the user to the particular content. This eliminates any type of liability that I could have by copying the content from someone else's site. So what I did in this particular example was link the user to Erin Andrews videos that were on Google video and from there the user can find anything they want on Erin Andrews.

### **Creating Your Article:**

Once I had my landing page setup with the content unlocker all ready to go, it was time to create my article in which I did on ArticlesBase which seems to work the best for me. Again, I wanted to target the keyword phrase that was getting the most searches that I found when looking at Google Trends. I found that the keyword phrase "erin andrews peephole tape video" was getting most searches on this particular day so I was going to target those keywords in my article.

In writing my article, I used this keyword phrase within my title which is the most important part in ranking high for the keywords I'm targeting. Also within the body of my article, it's important to use the keyword phrase a few more times, but not too much as that would be considered keyword spamming in Google's eyes. I did a little research on the topic and had enough information to write a short article of only 250 words along with putting 3 links to my website that directs people to the content unlocker. It's important to make your links stand out which I put in a bold font and one link that was the very first sentence so that people who didn't want to read the article could go directly to my site to watch erin andrews videos. You can see the article example I wrote below:

**Click Here to Watch Erin Andrews Peephole Tape**

Erin Andrews has a stalker that has been following her around apparently in various hotels while she is traveling through different cities. She is the news and sports anchor for ESPN which she has always been a famous model with many fans ever since she joined ESPN.

Just recently the 30 something year old male stalker has been going around to maybe more than one hotel and drilled holes through her room in which he then video taped her in the bathroom. The scenes show her getting ready in the bathroom in which this person video taped through one of those small hidden cameras through the hole he drilled.

**==> Watch Erin Andrews Peephole Tape Now <==**

What kind of society do we now live in that people especially women have to worry about who is watching them in a hotel room and the possibility of it being leaked on the Internet just like it did for Erin Andrews.

The news broke lose on Bill O'Riley show and has been spreading all over the Internet. The videos have been on some sites like You Tube and such but were immediately taken down because they do not allow any nudity in their videos.

Erin Andrews has attorneys that are working for her in trying to catch this person and possibly give out criminal charges. Regardless of what the outcome is, it's important to always know your surroundings and make sure that those hidden cameras aren't in any wierd spots that look suspicious.

I wrote another article using the new keyword title and then just rephrasing and rewording the information I wrote in my first article. It's important to never just copy any information from a previous article or directly from another website because this would not only be plagiarism, but Google would catch it as duplicate content and your article would never show up in the search results. Only after 4 minutes, I saw my new article show up in the top positions in Google for this keyword phrase!

And also

It's important to note that once you find a trend that is hot and being searched over and over again, you can easily maximize your traffic by writing new articles on the new keyword phrases that people are searching for by looking at Google trends each day.

### Technique 3: Using Current Events With the Content Unlocker on Your Website

One of my favorite ways to get instant traffic and leads from CPA offers is to again use [Google Trends](#) and see what people are searching for or stay up to date with current events. However, instead of using exact keyword phrases from Google trends, I'm going to think outside the box and target different keyword phrases to get traffic to my site. With the recent death of Michael Jackson, there was a ton of media coverage and people searching for various information on Michael Jackson which I thought I could take advantage of. With all the hype of the memorial service for Michael Jackson that was going to be aired live on television, I was going to focus on this as my starting point.

With this technique, I use article marketing to get in the first page of Google fast for various keywords and have my affiliate link to a CPA offer that relates to the article I'm writing. I also can send traffic from the article to my website in which I can use the content unlocker and earn leads that way as well. For this particular example, I am going to use the content unlocker to show you how I made money from the Michael Jackson current events.

It was the morning of July 7th 2009 and the memorial service for Michael Jackson was scheduled for that afternoon, so I wrote a quick article on [ArticlesBase.com](#) about Michael Jackson along with some information on the memorial. The key is to target certain keyword phrases that you want to rank high in the search engines for. In my particular case I was going to target ranking high for people searching for the keyword phrase "watch michael jackson memorial service online" as I figured that since this was on during the week the majority of people were going to be at work and wanted to be able to stream it live from their computer. Within my article, I put several links (ArticlesBase.com allows 2 within the body of the article and 1 in the resource box) all linking to my website where I had my content unlocker setup.

The key to this technique is to target the title of your article with the keyword phrase you want to rank for and also include some of those keywords within the description of your article as shown below:

**Stream the Michael Jackson Memorial Service Online Here**

The king of pop will be performing one last dance for his tribute on the red carpet in front of millions of people at the Staples Center, but this time he won't be present live as only his spirit will remain in front of the entire crowd. The staples center in Los Angeles will be the host to the [memorial service](#) that will be broadcast live throughout many stations on television and the radio.

Michael Jackson tickets to the tribute were free to many people that registered to the website and the lucky fans are already lined up to get their place in line. Tickets to the memorial service where going for as much as \$3,000 per ticket on ebay. However ebay officials were pulling all Michael Jackson tribute or memorial service auctions that they found.

Google loves article directories such as this one so you can expect to get high rankings very quick for longer tail keyword phrases like this one. I checked my results in Google for the keyword phrase I was targeting and found that my article showed up in just 3 minutes from when I submitted it. I didn't do any bookmarking or get backlinks of this article as it just ranked naturally because of the way that Google indexes article sites fast.

Over 4 Billion Results!!

I got 1st page ranking 3 minutes from when submitted my article!

Once the user clicked on my link within the article that shows them where to stream the memorial service online, it will direct them to a simple landing page I had already setup on an existing website I had to stream the service. You can see the basic setup I used below that only took me a couple minutes to setup. I use Front Page to create my simple landing pages that do not require any professional layout but any website builder or editor should be able to create something easy like that.

Once the user gets to my landing page, they will need to click on the link to stream the video which I added the content unlocker code from InstantDollarz.com to lock the page so the user had to complete a survey to get access to the live stream. It's important never to add the content unlocker to your home page because then the user has no idea what you have to offer, so I always add a link to my content unlocker on the second page as shown below:

After the user completes the survey the page will unlock and once they click on the play button it will direct them to a news website where they can actually watch the live stream so it's a win-win situation for both of us. With hundreds of views in just 1 day, I found that I had received several visitors to my site that converted into leads and easy money. The whole process only took me about 30 minutes to write the short article and setup my content unlocker page on an existing website I had. I know that this particular topic won't last more than a couple of days but for only 30 minutes of work, that can potentially lead to hundreds of dollars in leads so it's worth it to me. By doing this process over and over for new trends, it can consistently bring in \$100+ per day using this technique. With this type of technique you can literally have zero competition since you will be thinking of different keyword phrases other than what Google trends is displaying where others could be competing for those same keywords.

#### **Technique 4: Article Marketing with Polls Direct Linking to CPA Offers**

This method is definitely not new, but it works great if you apply the same techniques I'm about to explain to you here. Another way to earn leads from one field CPA offers by getting on the first page of Google is using a poll technique through article marketing. I was checking [Google Trends](#) again for the day and looking through some search terms I found an interesting term that I had never heard of before called "power texting".

**Hot Trends (USA)**

So I clicked on the link and found that it was getting hot in which a lot of people were searching for it. I then did a quick Google search on the term to check out my exact competition and found there wasn't much out there, which again was below 10,000 results as shown below.

Google "power texting" Search [Advanced Search](#) [Preferences](#)

Web [Show options...](#) Results 1 - 10 of about 6,280 for "power texting"

While I was searching for this phrase I got some understanding of what the term meant and how it started.

Basically it was the technique used to win over votes for the American Idol winner of 2009 which I got enough info to write a quick article about on Articlesbase.com. It took me about 10 minutes worth of research and writing the article in which I submitted.

Next, I bookmarked the article to get just one backlink from JumpTags.com. If you are unfamiliar with bookmarking, it's simply a way to get a backlink to your article so that it ranks higher in Google as you are giving your article an authority link. There are many social bookmarking sites, and if you go to [JumpTags.com](http://JumpTags.com) or any other social bookmark site, you will need to register there and follow the instructions on submitting a new link to their site which will be a link directly to your article.

As you've seen from my first example, social bookmarking or getting backlinks to your article is really not necessary as I got a high ranking without doing this. Getting backlinks is to more or less maintain your high search engine ranking. Even though, about 15 minutes later, I searched the keyword phrase I was targeting again and I ended up in the #6 position in just 17 minutes! I'm not expecting to get a ton of traffic unless this search phrase gets really hot, but this is just an easy example of how you can take lots of hot trends in Google and write an article about the information incorporating the poll technique to get some easy leads. This article could soon turn into thousands of views and hundreds of leads just like my other ones did as shown above.

### What is Power Texting?

Power texting is where you can send anywhere from 3,000 to 5,000 [text messages](#) at once in about a 2 hour timeframe. Reports have confirmed that representatives of the [cell phone carrier](#) AT&T formerly known as Cingular helped individuals and fans of Chris Allen how to send 10 or more text messages at the press of a single button. This is known as power texting and it's said that AT&T is the only [cell phone provider](#) where you can text your votes to the show.

**\*\*Do You Think Power Texting Made Kris Allen the Winner?\***  
**VOTE YES or VOTE NO**  
*(Just vote above for your chance to win a free Visa Gift card)*

Was American Idol voting rigged? No not really. Did AT&T allow power texts for Kris Allen voting, not Adam Lambert? Yes says reports that are now written articles online. The problem facing the scandal of this mess so far is the admission by AT&T, the rules of American Idol, the silence of FOX and the lack of clarity about the Kris Allen party. Whether or not FOX will even comment on this new event will probably take some time, but in the end Kris is probably still the winner.

Obviously there were probably thousands if not more p Kris Allen, where many people could of done this techn FOX come out and say anything, that's yet to be seen.

## Technique 5: How to Setup Your Own Content Site Free Using WordPress & Build Your Email List

In this example I am going to show you how you can setup your own content site for free using WordPress. In this example, I will also show you how you can also build an email list and earn money on auto pilot instead of using the content unlocker. You will also see how I used a professional looking WordPress template for free in this niche example. In this technique that I am about to show you how I earn money from one field CPA offers such as email or zip code submits and maximizing that revenue using a squeeze page instead of the content unlocker. Instead of the user completing a survey from the content unlocker (technique 1) to gain access to my content, I put an opt in form that captures the users name and email address to access my free content.

Again, you need to find a niche where there are lots of searches on the particular keywords per month so that you can get lots of traffic to your website. I did some more keyword research and found that "tattoo designs" were highly searched for in many different keyword combinations such as lower back tattoos, tribal tattoos, etc. I know that there are a few top selling Clickbank tattoo design products out there so that tells me that people are buying this guide which means that almost anyone would rather get similar content for free instead of paying \$35 for an ebook.

The first thing that I do when setting up a new free content site is to search for websites that actually provide free tattoo designs with pictures, categories, etc. The easiest way that I do this is simply perform a google search for various keywords like "Free tattoo designs"

The screenshot shows a Google search interface with the query "free tattoo designs" entered in the search box. The search results page displays several links to websites offering free tattoo designs, including "Free Tattoo Designs" from Tattoo-Selector.net, "Free Tattoo Designs: Tribal, Gemini, Cross, Star, Butterfly ..." from www.freetattoodesigns.org/, "Free Tattoo Designs - Star Tattoos, Tribal, Cross, Butterfly ..." from tattoos-and-art.com/, "Free Tattoo Designs, Gallery, and Ideas" from www.tattoospot.com/, and "Free tattoo designs" from www.tribalshapes.com/. Below the text results, there are four image thumbnails showing various tattoo designs: a tribal design, a dragon, a sunburst, and a snake.

I will then click on every website about 3-4 pages deep into the Google results and then make a list of the sites that are easy to navigate and contain a variety of free tattoo designs with images and such. What I don't want to include is any site that expects the user to sign up and pay for something. For example, in my search, I found this site that contains lots of categories and images of different tattoo designs so I will make sure to bookmark this site that will be added to my free content directory for my users.

Typically I want to get about 10 good solid websites that have a variety of tattoo designs, images, and quality content to provide to my users. The research will probably take me a couple hours at most to get the right sites ready to be put into my free content directory. Once the research is done, the hardest part is easy, and all I have to do is setup my website using WordPress.

The next step is to purchase a domain name in which I always try to make it keyword rich meaning that the keywords that I am trying to target and get traffic to will be part of my domain name. I usually use [GoDaddy](#) or NameCheap as they seem to always have the best deals on purchasing domain names. This will help for both organic search engine traffic and pay per click traffic to make my domain name bold for my keywords I'm bidding on. So in this example I am targeting the keyword "free tattoo designs" which I registered MyFreeTattooDesigns.info for my domain. I sometimes register .info domains a lot because they are the cheapest and I haven't found that .com vs. .info domains convert into more clicks comparing the two when using PPC to promote my site.

Once I have my domain purchased, I will setup my hosting account which is [HostGator](#) since you can host unlimited websites and domains with one hosting account for a low price. With HostGator I can also have WordPress installed automatically for me within the control panel of my hosting account.

After WordPress is installed, then I will need to add the content to my website. In WordPress, I will add a new page that I can put my content on so that when users complete a survey to unlock the page, they will be directed to the directory of all the free tattoo websites.

When adding my free content page, all I need to do is copy all the websites I found during my free tattoo design research and paste them into my WordPress page:

## Edit Page

**CPA Offer**

1. [tribalshapes.com](http://tribalshapes.com)
2. [tattoojohnny.com](http://tattoojohnny.com)
3. [tattoospot.com](http://tattoospot.com)
4. [tattoosiah.com](http://tattoosiah.com)

Path:

The key in this technique is to put a CPA offer at the very top to get as many visitors to click on this offer as possible to get credit for leads. The CPA offer must be similar to what your audience is looking for and in my case I found a CPA offer from GiveTattoos.com that will give a user a \$500 gift card towards a

tattoo. All I need is for the user to submit their email address and I will get paid \$1.40 per lead.

Image	Name	Short Description	Exp	Payout
	<b>Email Submit: \$500</b> <a href="#">Give Tattoos.com Gift Card!</a>	Is your audience looking to get their first tattoo or add some new ink to an in-progress masterpiece? Give them a chance to score \$500 in <i>free</i> ink with a gift card from GiveTattoos.com! Just an email submission needed to get you a \$1.40 CPA! <b>Allowed Media Types</b> EMAIL SEARCH WEB CONTEXTUAL SOCIAL MEDIA	2015-12-31	\$1.40/lead

To maximize my revenue even further, I add links to Tattoo affiliate programs that are on Clickbank at the bottom of my free content page. I could also add adsense to this page as well to earn even more.

### Other Tattoo Websites

[The #1 Tattoo Gallery on the Web](#) **Affiliate Links**  
[Tattoo Me Now!](#)

After I have my content page created, I will publish it from WordPress as this step is now done. The next step is to create my home page or landing page where visitors will first get to my site. For this step, I will add another page within WordPress. To earn money from CPA offers using this technique, I'm going to have my landing page setup as a squeeze page so that I capture the users name and email address to earn more revenue by setting up an auto responder to send out emails of related offers that they might be interested in. So once the user gets to my landing page, they will simply need to enter their name and email address to get access to my free content.

### Sign up Free to Get Access to Our Exclusive Members Only Area for Over 10,000 Free Tattoo Designs Instantly

Name:

Email:

I use [Aweber](#) as my email auto responder service as it's a breeze to set up my opt in form, send auto responders, etc as all I had to do is paste one line of code into my WordPress page to get the form you see above. The first email that I instantly send is to welcome the user to my free content directory of tattoo designs and also put a link at the bottom of the email of an exclusive offer they can get \$500 towards their next tattoo which leads them to my affiliate link for the tattoo CPA offer.

For each user that enters their email address into my auto responder, I automatically have emails setup to go out every week or so with similar CPA offers to maximize my revenue. For example, I found another CPA offer that will pay me \$.50 per lead for each user that downloads thousands of free tattoo designs which should convert very well for my subscriber audience. Just search on your CPA networks for keywords like tattoos and you will find some offers you can promote. Once a subscriber is on your email list, you have endless possibilities of more CPA offers to push their way and typically anything the subscriber can get for free, the more likely they will sign up and earn you leads for your CPA offers you are promoting. The one thing you don't want to do is send emails daily or unrelated CPA offers or they will most likely unsubscribe from your list or even claim you of spamming them. I usually send out emails every two weeks and only with CPA offers that are related to the niche in which my user can benefit from.

The last thing I have to setup on my website is a privacy policy, contact page, and terms page to make my site look professional to my users and to Google when I setup my adwords campaign for traffic. Finally, it's also important to add good content to your site like articles in which sometimes I will create on my own or simply copy them from article directory sites which you can also do as long as you include where you got the article from and include the author's resource box. I use the same generic privacy policy, contact page, and terms info on every site so it's just a matter of copying the text and pasting it into my site.

Finally, it's time to select a design for my new WordPress site. I usually find free WordPress templates or themes that I can use in many different niches at: <http://wordpressthemesbase.com/> All I need to do is download a theme I like here, upload it to my WordPress site, and then activate the them within WordPress. This completes the setup and later on if this website proves to be a successful campaign, I will want to add new content and posts to the site to keep it interesting for my visitors and increase my search engine ranking.

## **Driving Traffic to Your WordPress Site**

Just like getting traffic from all my other methods, I will look for keyword phrases that I can rank high for without too much competition. To find keywords in the tattoo niche, I use the [Google keyword tool](#) to get my suggestions and how many people are searching for that keyword phrase. I put in the keyword "tattoo" in the box to get all the keyword suggestions along with the search volume on each keyword as seen

below:

**How would you like to generate keyword ideas?**

Keywords	Advertiser Competition <a href="#">?</a>	Local Search Volume: June <a href="#">?</a>	Global Monthly Search Volu
<b>Keywords related to term(s) entered - sorted by relevance <a href="#">?</a></b>			
tattoo designs online	<div style="width: 20px; height: 10px; background-color: #808080;"></div>	2,400	3,600
buy tattoo designs	<div style="width: 20px; height: 10px; background-color: #808080;"></div>	Not enough data	880
tattoo designs uk	<div style="width: 20px; height: 10px; background-color: #808080;"></div>	1,300	1,900
tattoos	<div style="width: 20px; height: 10px; background-color: #808080;"></div>	16,600,000	20,400,000

I will start putting each keyword phrase in the Google search with quotes around the keyword to determine how many websites are competing against me for this keyword phrase. If it is anything under 10,000 like the example shown below, I will write my first article around this topic.

[Advanced Search](#)  
[Preferences](#)

---

Web [+ Show options...](#) Results 1 - 10 of about 14,000

[Image results for "celtic tattoo design" - Report images](#)

I found that "celtic tattoo design" had 5,400 searches per month and had 14,000 competing sites targeting that search phrase which is above my 10,000 rule, but since it's not that far off, I'm still going to give it a try writing my article around this keyword phrase. Again, to get information to write on your article, simply google the keyword phrase and visit a few sites around this topic which you can take all that information and write your content based off that information. Writing my article, I followed all the same strategies as I did before as you can see below:

## Browse Celtic Tatto Designs Here

Are you looking for the perfect celtic tattoo design that will be sure to fit the look you are going for? With so many different tattoo designs, it can be hard to know where to start or begin especially if this is your very first tattoo. There are a few things you want to go over before you get inked.

First, the celtic tattoo design has a certain meaning and you will want to make sure you understand that before you get it permanently attached to your body. Usually one who wants this sort of tattoo is typically Irish, Scottish, or Welsh as it's a way of expressing their heritage or pride.

**====> Click Here to Find Your Perfect Celtic Tattoo Design <====**

The actual meaning of the celtic tattoo is explained as a motherhood or awen symbol so that those that wear this type of symbol are expressing the Celtic descent. It's passed knowledge from generation to generation or orally telling stories of the celtic culture and pasthood.

The history of this tattoo goes back about a thousand plus years ago from the early Celts that started this tradition. The cross tattoo is very popular in the form of making it into the celtic tattoo.

Since there are hundreds of different tattoo keywords, you can write several articles on each type of tattoo design and more to maximize lots of traffic to your content site. Once again, I received instant results on the second page in Google in under 1 hour for my keyword phrase I was targeting "celtic tattoo design". As time goes on, I could potentially see my article ranked on the first page.

## Installing the Content Unlocker on Your WordPress Site

If I wanted to install the content unlocker on my site instead of building my email list, I would simply need to

modify the second page of my site to remove the opt in form I used from Aweber and replace that with the content unlocker code from InstantDollarz. My home page will remain the same because it works as the teaser page to get people to click onto the next page where either the opt in form or content unlocker is displayed.

First, I will need to login and get my content unlocker code from InstantDollarz so it will display the content unlocker on the page I want to lock.

#### Output Code

```
<script language=JavaScript' type='text/javascript' src='http://api.instantdollarz.com/content_unlocker/cu_api.php?p=4780&t=&minlc=&varid=tattoos&unlock_button=0&referral_link=0&tpl_logo_off=0&tpl_logo=&tpl_header=&tpl_std=1&tpl_fg_transparency=&tpl_bg_transparency=&tpl_bg_image=&tpl_bg_image_off=0&scroll_reset=&delay_onset=&hide_explorer_flash=1'></script><noscript><META http-equiv='refresh' content='0;URL=http://'></noscript>
```

Once I have the code, I need to paste that into my site. To edit my page in WordPress, I simply click on the edit button in the WordPress admin panel for my page that has the opt in form and replace that with the code I got from InstantDollarz.

**Edit Page**

DESIGNS NOW!</span></strong></h1>  
<p style="text-align: center;"><strong><span style="text-decoration: underline;"><a href="http://myfreetattoodesigns.info/free-tattoo-design-directory/">Members Access</a>  
</span></strong>  
<strong> </strong>  
<script language=JavaScript' type='text/javascript' src='http://api.instantdollarz.com/content\_unlocker/cu\_api.php?p=4780&t=&minlc=&varid=tattoos&unlock\_button=0&referral\_link=0&tpl\_logo\_off=0&tpl\_logo=&tpl\_header=&tpl\_std=1&tpl\_fg\_transparency=&tpl\_bg\_transparency=&tpl\_bg\_image=&tpl\_bg\_image\_off=0&scroll\_reset=&delay\_onset=&hide\_explorer\_flash=1'></script>  
<noscript><META http-equiv='refresh' content='0;URL=http://'></noscript>

I need to click on the HTML tab in the WordPress editor and then simply paste the code there, which I replaced over the opt in form code I had from Aweber. Once I save the page, my site now has the content

unlocker displayed on my site instead of the opt in form so I will instantly earn revenue instead of over the long term in building my email list.

These are techniques that you can use getting free traffic and get high rankings in Google and drive traffic to either your website and use the content unlocker to earn incentive leads or use a poll directly in your article and send visitors directly to the CPA offer via your affiliate link. There's also the option I showed you to build your own email list as well to earn recurring revenue from various CPA offers.

I've found that submitting articles through ArticlesBase.com works the best because you can include up to 3 links to your website or CPA offer via your own affiliate link and Google indexes their site very often as the proof shows how fast these two articles showed up in Google. The only draw back is that you need to submit several articles when you become an ArticlesBase.com author for them to be approved automatically. When you first register to their site and submit your first few articles, they will need to be manually approved before going live. However after submitting some articles that are approved, they will set your account on auto approve which will get your articles listed live instantly. You can also apply this technique to other large article directories like GoArticles.com and SearchWarp.com.

That wraps up this sneak peek at just a few solid techniques that you can follow and implement to make a lot of money through CPA networks and offers. If you want all my latest techniques, tools, resources, 1 on

1 coaching from my exclusive CPA Power Program and Membership please visit [Loot4Leads.com](http://Loot4Leads.com) as there are still a few spots open to the general public.

Until Then,

DEEZ
